About workspace7

Workspace 7 is an architecturally driven Workspace Design & Consultancy firm backed by a highly skilled in-house construction team.

A leader in its field, Workspace 7 engages with clients nationally to optimise workplaces and together create centres for organisational advancement and transformation.

Workspace 7 Corporate Transformations was established as the convergence of specialist workspace designers and strategic consultants passionate about revolutionising the future of office environments.

Our signature project delivery approach provides clients with best global practices in office architecture and workplace strategy, resulting in the delivery of truly compelling workspaces.

At **Workspace 7**,
our process is simple,
tangible, and 3-D

Discover Design Deliver

Mining and Resource Industry

Wurkspace 7 understands the office requirements of the Mining and Resources industry are unlike those of any other. The need for balance between agile and traditional office arrangements and consideration for remote operational locations necessitates a strong focus on technology and inclusion of video conferencing and operations rooms.

Head offices are commonly located in dense metropolitan areas demanding competitive rental costs, and must therefore be equally spatially efficient to minimise expense.

Wurkspace 7 understands your needs and has helped many organisations like yours to identify and leverage their space potential through our team of skilled and experienced designers.

So if you are looking at renovating or relocating, speak to the Australian specialist in design and construct.

Look at the recent transformations Wurkspace 7 has delivered for:

- Caterpillar
- Mining Plus
- Springfield Civil

A photograph of a modern office interior. In the foreground, there are two bright pink cylindrical ottomans on a light-colored wooden floor. To the left, a grey sofa and a white geometric wireframe table are visible. In the background, there is a large, colorful mural on the wall, a staircase with a wooden railing, and a blue wall with the text 'CORE VALUES' and 'THE BEST OF THE BEST'. The ceiling has recessed lighting. A large dark blue diagonal shape is overlaid on the right side of the image.

Mining and Resource Industry

Case Study:
MINING PLUS & Quattro PE

A decorative graphic in the bottom right corner of the dark blue background. It consists of several overlapping white circles of varying sizes. Small white squares are placed at the points where the circles intersect, creating a network-like pattern.

Project Concept

Workspace 7 gave Mining Plus and Quattro Project Engineering's coworking space much-needed premises upgrade. Both companies are part of the Byrnedcut Group.

The Byrnedcut Group has evolved over the last 30 years as a diverse group of companies providing a wide range of services to the mining industry and beyond.

SCOPE OF WORKS

- Paintings, window treatment and signages
- Electrical, mechanical, communication, fire and plumbing services
- Security and Visual/Audio systems
- Furniture and joineries, loose furniture and workstations
- Electrical goods, storage and filing
- Sundries, cleaning and waste removal
- Full project management and commissioning

Project Completion

Mining Plus & Quattro PE
Industry: Mining

From Concept

Using the latest in 3D modelling Workspace 7 can show you the outcome in photo realistic colour before a single hammer is lifted.

This service provides a sense of spatial awareness unrivalled by other means, guaranteeing your satisfaction in the completed project.

Down to the most intricate details, like conceptualising intra-office line of sight, or visualising the sun projecting into your workspace, our skilled designers turn your vision into reality right before your eyes.

To Completion

With up to 70% of project costs determined in the design phase, Workspace 7 understands the value of starting with the end in mind.

Therefore, rooted in years of relevant experience, our Project Critical Path™ has been designed to ensure every corporate project follows its optimal pathway, in order to achieve success.

By designing with the end in mind, we ensure nothing of value is overlooked, omitted or discarded.

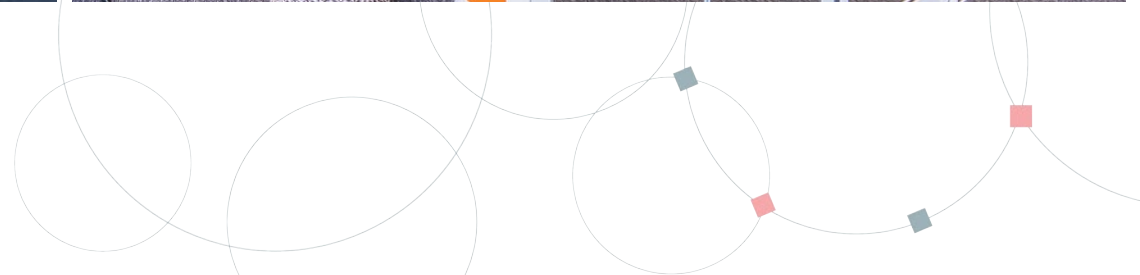

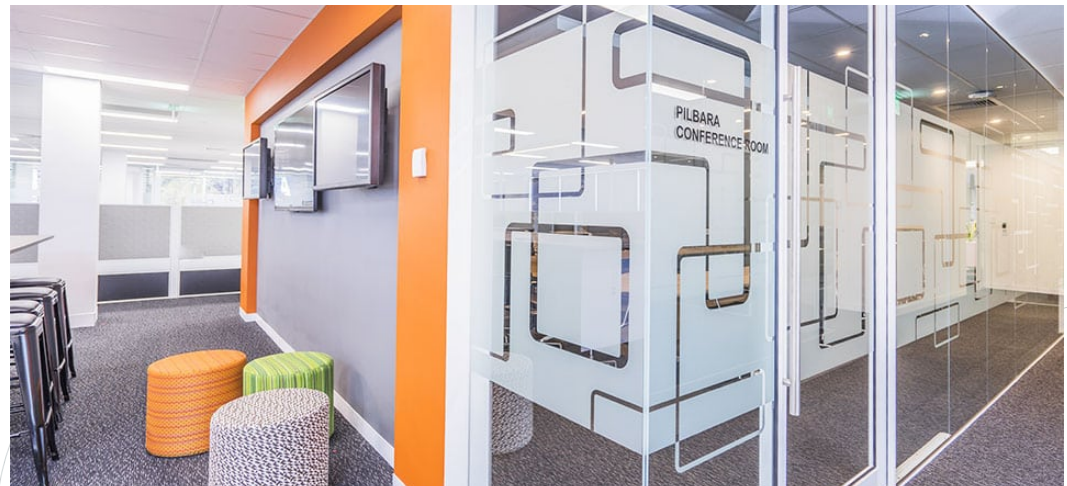

Completed Projects

Caterpillar
Floor Area: 1300 m²
Industry: Manufacturing-
construction and mining equipment

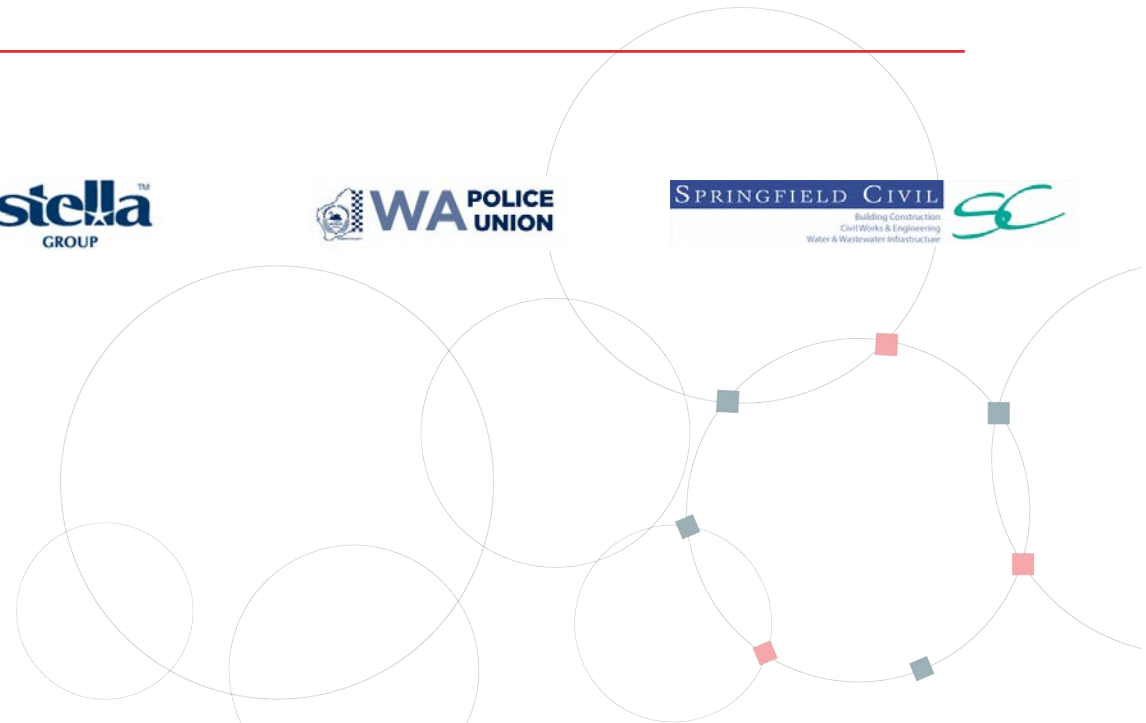

Springfield Group
Floor Area: 850m²
Industry: Civil Construction
and Engineering
